

# OneSpot

We are Transforming the Asset Tracking Industry with a Single-Point Indoor Localization System

## Problem

Logistics companies face significant challenges with package loss, and existing tracking solutions are cost-heavy, making it difficult to implement effective loss prevention measures.

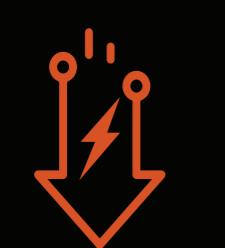

## Solution

OneSpot provides a low-cost, one-point tracker that allows you to track the exact position of a package in real-time.

Result: **No more package loss!**

 360°  
Localization

 \$  
Low Cost

 Low Energy  
Consumption

Ultra-wideband based Single point locator for indoor localization

Range upto 50 meters

Compliant with FiRa Standards

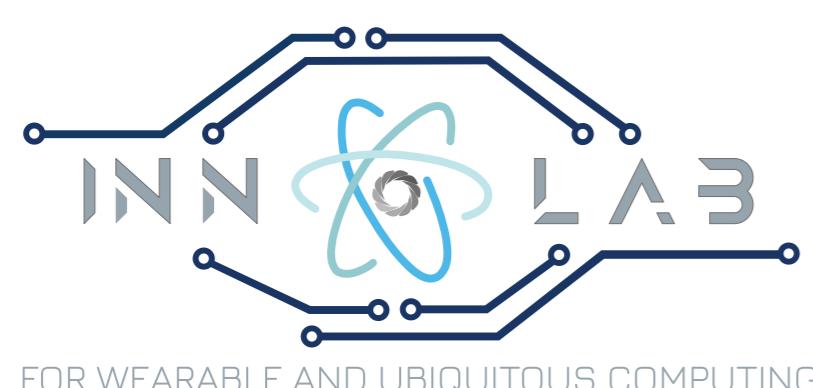

Easy Setup & Installation

24/7 Support

Team: Afaq, Debanjona, Hannes, Nick, Omer, Shreeja.  
Scrum Masters: Alexander, Rebecca.
